

ENVIRONMENTAL COMPLIANCE SERVICES

NGE works closely with clients across a variety of industries to help resolve the most demanding and complicated environmental issues. NGE listens closely to each clients' unique environmental concerns. We then combine our tenured resources across many broad consultative disciplines, from technical to engineering to scientific, to provide you with the best, most responsive solution within your required time frame.

Clients across the country benefit from NGE's ability to bring clarity to environmental issues at the heart of science, business and policy. If you need support as you respond to unexpected project challenges, evaluate opportunities to improve performance, or seek to reduce future liabilities, NGE can help. Our capabilities in this practice area include:

COMPLIANCE ASSISTANCE AND AUDITING

NGE's team of experienced staff have extensive backgrounds in regulatory compliance and industry management practices providing multi-media auditing, regulatory interpretation, ongoing compliance support, permitting assistance, project management and training services. NGE's regulatory experiences includes:

REGULATORY COMPLIANCE AUDITING

NGE provides multimedia environmental auditing services to assist clients in maintaining regulatory compliance and minimize liability. NGE will develop auditing protocols, conducting onsite audits, and assisting clients with corrective actions.

ENVIRONMENTAL DUE DILIGENCE

NGE assists clients with Phase I and Phase II Environmental Site Assessments and other aspects of transactional support. Through detailed site visits, file reviews and historical investigations, NGE has provided valuable services to clients related to the acquisition of industrial and commercial properties.

ENVIRONMENTAL REPORTING

NGE assists clients with a variety of on-going environmental reporting requirements such as air emission inventories, Form R and Tier II reporting, discharge monitoring reports for NPDES permits, hazardous and residual waste reports, TSCA reporting, Title V compliance certifications and deviation reports, and other key agency submittals.

ENVIRONMENTAL MANAGEMENT SYSTEMS

NGE has extensive experience with the development, implementation, and maintenance of environmental management systems, including those following the ISO 14001 standard. NGE manages internal auditing programs and provides assistance with surveillance and registration audits.

AIR AND WATER PERMITTING

NGE provides permitting and renewal services for clients related to air, wastewater, and storm water regulations. NGE can assist a variety of industries with NSR, PSD, Title V air permits, minor source air permits, and NPDES permits for wastewater and stormwater. Our staff has experience with regulatory agencies across the nation, and has been successful at negotiating expedited approvals.

ENVIRONMENTAL PLANS

NGE is familiar with the various environmental regulations that govern environmental plans for facility operations. Examples of plans NGE has authored and certified include Spill Prevention Control and Countermeasure Plans, Storm Water Pollution Prevention Plans, Hazardous Waste Contingency Plans and Integrated Contingency Plans.
