

ENVIRONMENTAL COMPLIANCE SERVICES

NGE has an established environmental compliance practice focused solely on environmental matters, unlike many other engineering firms. Environmental groups within most engineering firms are established to support other engineering services within the firm and lack true depth and experience with environmental compliance knowledge. NGE was founded as an environmental engineering consulting firm to assist our clients in navigating and complying with complex environmental regulations and their associated requirements. Our environmental compliance capabilities include:

ENVIRONMENTAL PERMITTING SERVICES

NGE provides environmental permitting services for clients related to air, wastewater, and stormwater regulations. NGE assists a variety of industries with Title V air permits, minor source air permits, and NPDES permits for wastewater and stormwater. Our staff has experience with regulatory agencies nationwide and has successfully negotiated expedited approvals.

ENVIRONMENTAL REPORTING SERVICES

NGE assists clients with various ongoing environmental reporting requirements such as air emission inventories, Form R and Tier II reporting, discharge monitoring reports for NPDES permits, hazardous and residual waste reports, TSCA reporting, Title V compliance certifications and deviation reports, and other key agency submittals.

ENVIRONMENTAL PLANNING SERVICES

NGE is highly-experienced with the various environmental regulations that govern environmental plans for facility operations. NGE has authored and certified Spill Prevention Control and Countermeasure Plans, Storm Water Pollution Prevention Plans, Hazardous Waste Contingency Plans, and Integrated Contingency Plans.

GENERAL REGULATORY COMPLIANCE SERVICES

NGE's team of experienced staff has extensive backgrounds in regulatory compliance and industry management practices providing regulatory interpretation, ongoing compliance support, permitting assistance, project management, and training services. We have regulatory experience with many relevant environmental regulations, including RCRA, EPCRA, CWA, and CAA.

MULTIMEDIA ENVIRONMENTAL COMPLIANCE AUDITING SERVICES

NGE provides multimedia environmental auditing services to assist clients in maintaining compliance with both federal and local regulations. NGE develops auditing protocols, conducts on-site audits, and assists clients with corrective actions.

ENVIRONMENTAL SUSTAINABILITY & RISK MANAGEMENT SERVICES

NGE has extensive experience with developing, implementing, and maintaining environmental management systems, including those following the ISO 14001 standard. NGE manages internal auditing programs and assists with surveillance and registration audits.

ENVIRONMENTAL DUE DILIGENCE SERVICES - PHASE I ESAs

NGE assists clients with Phase I and Phase II Environmental Site Assessments and other aspects of transactional support. Through detailed site visits, file reviews, and historical investigations, NGE provides valuable services to clients related to acquiring industrial and commercial properties.
